SOMETHING TO THINK ABOUT!

A Conversation with God

I asked God: "What's the one thing that surprises you most about mankind?"

God answered: "That they get bored of being children, are in a rush to grow up, and then long to be children again. That they lose their health to make money and then lose their money to restore their health. That they think anxiously about the future, they completely forget the present, such that they live neither for the present nor for the future.

That they live as if they will never die, and they die as if they had never lived..." They drink to be happy and end up being sad and miserable.

What are some of the things that mankind can learn?

They cannot make anyone love them yet they should let themselves be loved. That what is most valuable in this life is not what they have, but whom they have in their lives. That human beings are different yet all are created in the image and likeness of God (Imago Dei). That a rich person is not the one who has the most but rather is the one who needs the least.
